

NEW RED CLOVER SEED WILL BE FULLY TESTED

The provincial department of field husbandry is desirous of giving the new red clover, which was experimentally raised at the university of Alberta last year, a systematic trial under widely different conditions in the province, and for this purpose is offering just now a very small quantity of the seed to farmers. It is requested that this be seeded out in a short row to determine its drought resistance and winter hardiness. As it is the purpose of the department to have this seed tested under as wide and varying a range as possible, seed cannot be guaranteed to such applicant and only a very small sample will be sent in each case, enough to plant in a row in the garden where its growth and general characteristics can be observed and seed produced for later seedings.

While these tests are under way throughout the province, the clover will be tested at the university as a farm crop for hay and pasture, so that when its relative hardiness has been ascertained the department will be in a position to make recommendations as to the best methods of growing it.

This clover was originally introduced by the Central Experimental Farm from Sweden and has therefore been given the name of "Alta-svede" red clover. All farmers who are willing to co-operate in testing this clover in a small way and who will give a report on its behaviour, should make application to Prof. G. H. Cutler, of the university of Alberta at Edmonton, and make application to the nearest township and section of the applicant's farm should be given, as well as any other information that may bear on the carrying out of the test.

RESERVE LANDS WILL BE THROWN OPEN BY CROWN

A notification from Ottawa states that Canadian soldier-farmers will soon be able to settle on a large area of western reserve land which has now been thrown open by the Crown and which will come under the jurisdiction of the soldier settlement board. Action has been taken to dispose of some 75,000 acres of Hudson's Bay reserve lands in the provinces of Alberta and Saskatchewan, and 15,400 acres of Donkhorst reserve lands near Kamuch, Sask.

A portion of the land will be sold April 15th and the proceeds given to a reserve fund to offset settlement losses and to aid returned men physically disabled whose condition and circumstances necessitated their being settled on the land. The remainder of the area will be thrown open about April 30th for soldier grant entry. Assistance in the form of term loans for stock and equipment will be given to those men whose knowledge of farming will enable them to proceed to develop and operate their land.

In a hockey match played on Monday last in the rink between the junior teams of Edmonton and Wainwright, our home lads were victorious to the tune of 6-0.

From what we can gather quite a large number of farmers and their families will be in attendance at the Spring Live Stock Show and sale at Edmonton next week.

Under the Game Act, as amended at the present session of the legislature, prairie chuk shooting season will be open for two weeks only this year from Oct. 15th to Nov. 1st.

Palace Billiard Parlors to Change Hands May First

After Six Years of Occupancy Owner Makes Pile and gives up Business To Rest Awhile

This week sees a deal put through whereby Fred Gordon takes a rest from his business in the Palace billiard parlors and smoketeria, and retires from the madding throng of dollar-shiners.

Messrs Jack Telford and J. Bryant, both of whom are well known to our readers, have now signed up to take over the premises on May 1st next, and we understand that it is their intention to make such alterations and improvements where by these premises will become one of the premier parlors of the town of the west.

There are some half-dozen pool and billiard tables, and it is possible that the change will see the installation of an up-to-date bowling alley in addition. It is the intention of the new proprietors to remodel the front portion of the building and this will be occupied by an up-to-date fonsorial stand as well as the smoketeria which will continue to carry a full line of all the best brands of tobaccos.

We wish the new proprietors all success in their venture and bespeak for them all the support they deserve.

PURE BRED CATTLE WORTH DOUBLE THE VALUE OF GRADES

It is remarkable how quickly a herd can be built up from a few foundation cows. The dairy herd on the Agassiz Experimental Farm was started by the purchase in December, 1913, of 28 grade cows, and the following year of these pure-bred cows. Then in the fall of 1915, two pure-bred heifer calves and the next year a pair of two-year old heifers, pure-bred also, were purchased.

Today there are forty-two pure-bred females in the herd including the above and their descendants. It is remarkable how quickly a herd can be built up from a few good foundation cows. A yearly comparison has been made during the last three years of the five most profitable pure-bred cows and of the five most profitable grade ones, and in each instance the pure-breds have been the more successful from the commercial standpoint. On the average the pure-breds produced 4,476 lbs more milk and 153 lbs more fat, per cow per annum, and yielded an average profit over feed cost of 27.64 more per animal than the grade cows.

After a pure-bred herd has reached a suitable size the most money is made by selling the surplus stock for breeding purposes. The Holstein bull Inka Sylvia Beets Posch, 5563, was used as senior sire in the Agassiz herd from December, 1916 to July, 1918, and from that time service during that period fifteen grade and twelve pure-bred females were raised and are in the herd at the present time. Putting the very top most value on the grade heifer stock, they are worth \$1875, while the dozen pure-bred heifers are worth just about twice that amount—yet they cost no more to raise than the grades. The pure-bred male calves born in the herd during the same period were sold for \$100 each and up, while the grade bulls were sold for veal.

The O.T.P. made up a special train on Wednesday last for the run to the city on account of No. 1 being snowbound further east. Both Tuesday's and Wednesday's trains, however, got through on Thursday.

BUSY BEE SEWING CLUB.

The club met at the home of Mrs. V. Graham on Saturday last, when 14 members were in attendance, all of whom are showing a marked improvement in their sewing. During a short social time, Margaret Newberry gave a delightful recitation, after which the hostess served refreshments, for which she was accorded a vote of thanks. The next meeting is to be held at the home of Mrs. Frates on Fifth avenue at 3 o'clock on Saturday next.

STRATHCONA TRUST OPEN TO PUBLIC SCHOOLS

Every school, whether public or private, collegiate or high, may have a cadet corps and qualify for the benefits of the Strathcona Trust. Teachers trustees or others interested are invited to write to the organizer and inspector of Cadet Corps, at the headquarters of M.D. No. 13, Calgary for all information. Every encouragement and assistance will be given to obtain competent instructors, if the teachers are not qualified.

Returned soldiers holding a certificate from the Canadian schools are entitled to the Strathcona Trust. The headquarters M.D. No. 13, Calgary, should they desire to take up instructional work in the cadet corps movement. Instructors are paid a small gratuity.

We learn that orders have been issued by the department that the Motor Vehicles Act regarding glaring headlights is to be rigidly enforced.

Owing to the sudden thaw causing a very bad state of the roads for travelling, it has been decided by the U.F.W.A. that the card party arranged for March 31st is to be postponed. The date fixed upon will be announced later. Will those having tickets for sale kindly return them to Mrs. J. H. Dawson.

WEDDING BELLS

A very pretty double wedding took place on Wednesday last at the home of Mr and Mrs Norman King of Fabyan, when their brother Lancelot B. King was married to Miss Helen E. Day, and Mr Geo. W. Madder was married to Miss Edna M. Day the Rev. N. F. Priestley being the officiating minister.

The two happy bridegrooms are both old-timers in the district, and the charming brides are sisters, and are also cousins of Mrs N. King with whom they have been staying since last summer, coming to this district from their former home at Arlington New Jersey U.S.A.

The nuptial ceremony was performed at four o'clock and the two happy couples left on the westbound train later in the evening. Mr and Mrs Madder travelling to Vancouver, Seattle, and other coast points and Mr and Mrs King arranging to visit at several points in Alberta.

The numerous costly and useful presents which both of the happy brides received well met the occasion in which all of the contracting parties are held, and The Star extends a host of good wishes for a long and happy married life to the newly-weds.

THE HAT SHOP NOW OPEN in the FRASER BLOCK Remodelling a Specialty Mrs. D. Sutherland

LOCAL NOTES

H. V. Fieldhouse was to Edmonton on business Saturday.

Julius Springer was in town from Edmonton for a few days this week.

We understand that T. Newberry will shortly be moving out to his homestead.

Mail or bring your dollar to the secretary and become a booster for the fall fair.

Mrs Chas Newport arrived in town on Monday last for a short visit with friends here.

J. G. Alderman is spending a short visit with H. C. Neale of Edmonton south these days.

Jack Reid is up from his farm at Arlind, Sask., renewing old acquaintances for a few days.

Mrs C. Jonason left Sunday for Edmonton, where she is on a visit to her daughter, Mrs H. H. Croxson.

Herb Hart, who has been spending the winter in the district of Peace River, arrived home on Monday last.

The latest issue of the official gazette announces the appointment of A. E. Ripley of Edmonton, as a notary public.

Be a member and a booster. Get your \$1 paid in to the society of the agricultural society, and help along this good work.

The degree team of the local Rebekah lodge recently defeated the team of the agricultural society on Thursday last, when Miss G. Marr was the candidate they introduced to the goat.

Agricultural Society Gets Busy For the Best Fair Ever

Opening meeting sees good attendance rules revised--profitable discussion

On Saturday afternoon last a large number gathered in the Council chamber, of the town hall for the purpose of getting the business of the Wainwright Agricultural Association "under weigh," and the sexes being about evenly divided the several points were brought out for discussion about the different propositions, provoked at times a lively yet profitable argument.

The minutes of the inaugural meeting having been read and confirmed, the secretary reported on the appointment of the board of directors, S. R. Bowerman acting as secretary with B. Arkroyd, vice-president in the chair.

The meeting decided eventually to elect a board of twenty directors, one-half of which to be lady members, and finally on the motion of Messrs. N. F. Priestley and A. Kohl the following were appointed:—Messrs Dawson, Morton, Churchill, Bean, McLean, Wilson, Watson, Arkroyd, Kohl, and Welch, and Messrs Bean, Watson, Morton, Church, Clippstone, Moffatt, Valleur, Gibson Traynor and B. Wiley.

It was pointed out from the chair that the office of secretary was in the appointment of the board of directors and that would be decided at their first meeting.

The rules for the fall fair

St. Luke's Church Holds Successful Social Event

St. Patrick's Day Card Party Proves Financial Success—Elaborate Boxes Bring High Prices

The "17th of Ireland" was sure a red-letter day in the annals of the local catholic church for on Wednesday evening last at the theatre the result of efforts of the members of that institution proved to be so well repaid for the trouble expended that the net proceeds of the affair totalled nearly \$90.

The proceedings opened with a progressive whist drive for which some forty tables were prepared; and after some excitingly close scoring the winners were announced as follows: Gents' 1st prize—ton of coal

donated by the Atlas Lumber Co.—Thos. Sheridan, 99 pts. Gents' 2nd—box of cigars, W. W. Yeager, 95 pts.

Consolation—A Touchette, 86 points.

Lady's 1st prize—Hand-painted bonbonniere—Mrs T. Bisson, 90 pts.

Lady's 2nd—Silver-mounted perfume bottle—Miss E. Norstrom, 88 pts.

Consolation, lady's—Miss G. Marr, 69 points.

At the close of the card playing, Antoinette V. Lawrence sang his little song "over the numerous and handsome boxes to such good purpose that well over \$100 was gathered in for the sale of them, and everyone was soon pleasantly and busily engaged finding owners and delving into the hidden mysteries; the ladies of the church supplying the good coffee as a worthy accompaniment.

The judges for the best box prizes, Mrs B. Fraser, Mrs W. Washburn and Mrs V. Graham had a truly hard task, so much time and pains having been expended upon these, but with their natural sex intuition they finally made decisions which met with popular favor, and the winners were announced as follows:—

1st—Silver piece—Miss A. Dugan with "St. Patrick's auro plant" box.

2nd—Silver pickle fork—Mrs J. B. Van with "Old Erin" box.

3rd—Box of chocolates—Miss B. Roy with "Howland's basket" box.

During a couple of intermissions, Miss Ash delightfully rendered "Sunshine and Refrillies," being accompanied by Mrs Fraser, and W. Goulet sang "When I dream of Old Erin" in his usual brilliant style, Miss Connolly officiating at the piano for this offering.

The trustees of the church are all to be congratulated for the manner in which they all helped the ladies to achieve the success of the whole proceedings, and another such affair would be welcomed by many.

Tony Girard, who has been working for the Imperial Lumber Co. in town, has now accepted a position at Rosemary, Alta.

The name of Strathcona Securities, Ltd., the head office of which is located here, is being changed to Wainwright Securities, Ltd.

According to statistics the snowfall over Alberta during the past winter was no less than 6 feet 1 1/2 inches on the level on the average.

MAYFIELD NEWS

We extend a hearty welcome to our new little lady friend Miss Dolan. She arrived on Sunday morning, and both mother and daughter are doing fine.

J. Dolan left at the week and on business at Viking.

Mayfielders are glad to get their old broncho buster, J. Kitchen, back in their midst. Guess Frank will be pulling off some new fancy stunts, eh?

We are sorry to hear that J. Veith suffered a severe horse-kick while driving through the barnyard. Hope to see him around very soon.

Cliff Church says he'll be sorry when the snow goes as he has finally got the real live carry-all for two. The little wind-sifter is a sight, Cliff.

Arnold Harden and his brother Alf, were visiting their brother Arthur north of town this week. We are glad to see them and learn that Alf is going to take up farming again.

Arnold Harden and his brother Alf, were visiting their brother Arthur north of town this week. We are glad to see them and learn that Alf is going to take up farming again.

PRESBYTERIAN BACHELORS IN SCHOOL MOOD

The bachelors (and others) of St. Andrew's church were did themselves proud on Thursday evening last, when they undertook what most difficult of social functions—to satisfactorily feed the crowd; and it must be confessed that for once at least, "more man" was entitled to swell with pride at his achievement.

A special feature of the gathering was the manner of making the toll of admission, this being decided by the height of the person seeking entrance, and to judge by the bank-roll collected, Tax-gatherer J. H. Dawson must have had all of them "on their toes." Master Hugh Fraser, who sure made a splendid "little big fellow" in the chair, acted as announcer for the programme. His splendid make-up, adding greatly to his prestige in that position, and Chief-cook-and-scrub-man Bowen reigned almost supreme in the culinary region.

During the "gathering of the clans" the Wainwright orchestra gave several pleasing numbers and filled items on the programme also.

The vocal items by R. Johnson were splendidly rendered, especially his negro impersonation number "Mammy's Coal Black Baby" but what a way to handle a pianissimo! His splendid sketches of Alf. Aikens fairly "brought down the house," he being a past-master of this difficult art and his other imitations were all given in his usual inimitable manner.

From now on, no doubt Jack Dawson will be watched with suspicion, as the way in which he escaped from handcuffs and chains was a revelation of his agility at such tricks as these, his conjuring tricks, too, all received well-merited applause. We are told that a couple of visitors actually came to change, but J. B. smiles and says nothing.

The dialogue of Messrs Johnson and Forrest proved mirth-provoking, as they most fully described to what cause the flesh of the dog could be most truly ascribed, and the whole proceedings from start to finish reflect great credit upon all who had a hand in the affair.

Mrs. Fraser acted as accompanist for the song numbers in her usual efficient manner, and the dainty supper served (as well as prepared) by the members of the male persuasion proved a treat in itself to a very enjoyable evening.

WALTER MUSSON CHAPTER I.O.D.E. ELECT OFFICERS

The "Walter Musson" chapter of the I.O.D.E., at a well-attended meeting on Saturday elected their officers for the ensuing year as follows:—

President—B. Parsons.
1st Vice—Mrs R. Crampton
2nd Vice—Miss Horn.
Secretary—Miss M. J. Gerson
Treasurer—Mrs J. Jewson
This looks like a real live body of workers, and they will no doubt give a good account of their stewardship at the end of their term of office.

CARELESS FIRE-SETTERS TO BE FINE

Owing to the shortage of feed, and the live-stock loss in this connection, Fire-ranger J. Dawson has been instructed by the provincial department to see that every endeavor is made to prevent the kindling of fires which might prove disastrous to pastures.

Included in his letter, also, are instructions to use every means to fulfill the Prairie Fire Ordinance, and to carry out the provisions of the Act against all persons who deliberately or through carelessness fail to comply with its requirements.

SUNFLOWERS FOR ENSLAVE

Much boasting is being done for the sunflower as a feeding plant for cattle, and it seems certain that it will repay for the planting for that purpose. Experiments conducted by the C.P.R. on its Strathmore farm fully demonstrate the excellent worth of the plant in feeding dairy cows, and there seems to be no question but that it will be possible to grow the plant on almost any farm in this province. However, it will be long time before Alberta farmers generally adopt the sunflower as a cattle food.

The reason for this may be understood when it is explained that a silo is necessary if sunflower is to be used, and silos are more money than the average farmer is able to spend this year at least, particularly if they are in the dairy business. One of these days the silo may be a common sight on the Alberta farm landscape, just as it is now in the eastern agricultural districts, but it will come slowly and in the meanwhile we shall have to make the best of conditions as they are.

Just so long as the farmers of Alberta continue to depend on prairie hay for the extent they now do, feed purposes over winter, just so long will there be recurring feed shortages more or less acute. And when the seasons of shortage come there is bound to be a general rush of cattle to whatever market may be available with consequent lessening of the total number of breeding animals in the province. Prof. Carleton of the Provincial Agricultural College, in a recent speech at Calgary, was surely correct when he said that this is a matter which touches very closely the prosperity of the country, and for reason the matter is of as great interest to townsmen and farmer alike.

SOME ACTION IS REQUIRED.

The timber situation in the west appears to be a serious one. The American dealers have been busy on this side of the line buying up all the stock they could lay their hands on, and shipping it south, and so tremendous have those operations been that an enormous quantity of lumber has left the country, that, with even more under contract, there is danger that the building programme

which has been prepared for the present season may have to be seriously curtailed.

Urgent representations have been made to the Canadian government to act in this matter, but so far an efficient remedy does not appear to have presented itself. A great lot of the standing timber in the province of British Columbia is owned by American capitalists, and in some instances they are operating one or two large mills. The Chemaino Company, on Vancouver Island, which is said to be allied with the great Weyerhaeuser concerns, owns one of the biggest tracts of Douglas fir in the world and also operates large mills there.

This is only one American concern amongst several at the coast. It is not known to what extent these firms are shipping to the other side, but if the Canadian need for lumber is as great as represented an embargo should at once be placed upon shipments to the States and the supply diverted to the requirements of this country.

Without advocating too insensitive a system of government control, there are, no doubt, occasions when the powers that be can use their authority to make public advantage. This is a real live town, where strong action at that.

BUILDING UP THE HOME TOWN.

Did you ever visit a town that had the reputation of being a real live town, where every resident was a self-appointed booster?

Farmers drive miles out of their way to trade at such a town. Why? Because a town is just what the people choose to make it, and the residents surrounding the district of all of these live, progressive, up-to-date towns have a clear conception of what makes a community attractive to its people. The merchants have attractive stores and good quality, standard brands of merchandise at fair prices. They strive to do their utmost to please each individual customer. They also show by their actions that they appreciate the trade that comes to them and to the town.

Fires Break Out

and thieves break in. Don't risk the first, or invite the second, by keeping money in the house.

Put it in The Merchants Bank, where it will be safe from loss—always available—and earn interest at highest current rates.

If Four Men Came To You

And the first one said—
"I am getting more mileage than I ever dreamed of out of my tires."

And the second said—
"My tires are guaranteed puncture proof."

And the third said—
"My tires are 20 p.c. oversize."

And the fourth—
"My tires cost only 1/2 as much as yours."
And when you asked them what tires they used, each

answered "Gates Half-Sole Tires"—wouldn't you, too, want to know more about this new principle of tire construction that more than 1,000,000 motorists are using to cut their tire costs?

How, perhaps, through this new factory built process you can make the tires now on your car last for many, many more of those pleasure trips; how you can add from 5,000 to 15,000 more miles to the life of your worn casings.

Come in today and let us tell you more about it.

HEATH HAPPENINGS

Mr and Mrs Robert Maughan, sr., were the guests of Mrs W. J. McBeth for a few days this week.

Bloomington Valley dancers, held last week was a huge success, the music being supplied by the Maughan family.

Tom Chick was a business visitor to town last week.

A. Messier, jr. was away to Edmonton on Saturday last on business.

Charlie Kregan, who was for some time section foreman at this point has bid his many friends here good-bye. He is taking over the same position at Unity, Sask.

Ed. Knott, from the Edgerton district, spent some time here buying up cattle. He has picked up a nice bunch, too!

George Hunt, sr., has returned from Saskatoon, after a month's holiday spent at the home of his son there.

We regret to learn that little Josephine Maughan is threatened with pneumonia, and all wish her a speedy recovery.

We are pleased to note that Duncan and Dan McEayden are both steadily improving.

The dance held at Arm Lake last week was fairly well attended and all present had a very enjoyable time.

P. J. Bouchier is intending to exhibit a number of his registered cattle at the Edmonton Spring Show. Here's hoping he brings home some of the silverware.

Alf Aitken was in Wainwright last week when he assisted the bachelors of the Presbyterian church there in putting on their concert. Alf was in his usual humorous vein too!

The telephone gang are busy around here at present, and on the completion of the line we expect that central will have a busy old time answering the calls.

All our farmers are practicing "the smile that won't come off" in anticipation of the bumper crop which looks very promising and favorable.

Jack Brophy's new hired help arrived safely on Saturday's train from the west.

Tom Heathfield is still enjoying his morning baths at the Clear Lake.

Mrs L.W. Davis was a tripper to Edmonton this week.

FARMERS ASK WHERE DO THE CATTLE GO TO

A lot is heard these days about the large number of cattle which is missed year after year from the farmsteads, and which mysteriously vanish so far as being regained by their legitimate owners are concerned.

In this connection the following statement has been given by F. W. Watkinson, of Irma, who has taken no small trouble to verify the facts and compile the table:

Over 100 cattle have disappeared from this district within the last two years, and the following have been the losers to the extent shown.

W. Merrick, 16; Jas. Milne, 12; W. Hallett, 11; Thos. Scott, 4; Sam. Dempsey, 8; M. Bonney, 1; G. Bishop, 2; D. Tranter, 1; A. Jackson, 2; A. B. Kenyon, 2; Angus Trail, 1; F. Perkins, 1; J. Taylor, 1; W. Dyer, 2; A. D. Cooper, 5; John Milne, 4; Mrs. McBryan, 1; W. Warnock, 3; Ivor Olsen, 1; G. Elsingham, 3; J. Watson, 1; J. Richmond, 11; D. Pavey, 1; A. McCormick, 1; D. Tennant, 1; W. Tunney, 3; A. B. Browne, 1; Thos. Bazley, 3;

These men are all bona-fide farmers, and therefore the loss is keenly felt. Something can surely be done to stop this awful loss.

GRACE CHURCH L.A. HOLD COOKING SALE

The Ladies' Aid of Grace Methodist church held a successful sale of home cooking and afternoon tea in the Beaudry store on Saturday afternoon last, when several tables were placed at the disposal of the ladies as well as the office at the rear which served excellently as a kitchen. The ladies complain that owing to the scarcity of sugar there is a difficulty in securing the usual number of cakes, etc. for such a function as this, and on that account they were sold out so early that many patrons were disappointed.

CHURCH NOTES

ST. ANDREWS'— Services next Sunday as usual. Morning at 11, evening at 7.30. Sunday school at 2.15 p.m.

Presbyterian Service, Greenshields at 3 p.m.

ST. THOMAS'— Sunday next, sixth Sunday in Lent. 11 a.m.—Matins. 2.30 p.m.—Sunday school. 7.30 p.m.—Evensong.

ST. PATRICK'S (Heath)— Sunday next, March 28th, 3 p.m.—Evensong.

GRACE CHURCH—Sunday next services as usual at 11 a.m. and 7.30 p.m. Sunday school at 2.45 p.m.

Mid-week service for the study of Prof. Fosdick's book "The meaning of prayer," on Tuesday at 8 p.m.

Choir practice on Thursday evening at 8, at the home of Mrs. W. S. Clark.

Methodist service at Trafalgar schoolhouse on Sunday at 3 p.m.

THE PRINTER'S PRAYER.

Oh let this day be filled with the good things of life; deliver us from the hell-box (the repository of broken type), and fill every delinquent subscriber's heart with a dollar and a-half's worth of remorse; guard over the office devil and forgive him trying to wash on the office towel. Give us many periods of rest; keep our formes well locked up and our stomachs properly justified to overcome Monday meals. Deliver us from getting out of sorts and give us the patience of Job (who couldn't have been a printer). Help us to stick to our business that it may be picking up, and no case be found wanting. Keep our circulation up to a healthy standard and let it be one that will never need padding; give us our daily bread, but deliver us from "pi" at any price. And when our formes are locked up for the hereafter, let some one to press in such a manner as to leave a lasting impression on mankind. Amen.

STOP! LOOK! LISTEN!

We will re-bore your Ford Block for \$10, and you can overhaul your own Car when you have nothing else to do, and come out in the Spring with a Car as good as new.

We will re-bore the cylinder of that gas engine of yours that has lost compression.

Perhaps your tractor front-wheels need attention; we can re-bore and re-bush them, making them as good as new.

HAPPENINGS OF LOCAL INTEREST

BORN.—To Mr and Mrs T. Daniels, on March 18th, a girl.

BORN.—To Mr and Mrs T. Dolan, on Sunday, March 21, a daughter.

BORN.—To Mr and Mrs T. Ramey, on Sunday, March 21, a son.

Congratulations to all.

In connection with the convention of the Battle River riding U.F.A. political association, which will be held in June next, J. G. Clark, of Irma, was in town on Saturday last interviewing the local U.F.A. executive and the town council regarding details of this function.

Steve Bowerman is announcing a big auction sale on the W. A. White farm, 36-44-6-4 to take place on April 7th. This will be a dandy sale. Watch for posters.

Our readers will be glad to know that Fred Pawling is now improving nicely. He is still in the city, whither his mother accompanied him.

Mrs Fred Moffatt, of Edmonton, is in town enjoying a holiday with her parents, Mr and Mrs P. Laird.

F. W. Watkinson, of Irma, was in town on business for a couple of days last week.

At the dance at Viking on Tuesday last, the winners of the prize waltz were Mr J. Telford and Mrs Robinson. We wonder whether Jack sham-pooed or massaged to get rid of that rheumatism he nurses so carefully; anyway he lumbered up in such fashion as to be able to "show them!" Possibly he danced for joy at his new business deal. Eh, Jack?

The breaking of the pump-rod at the bottom of the power house well on Wednesday last made things look serious for a while, but Engineer Henderson with his usual ability soon had things ship-shape without having to shut down the plant.

A great variety of Millinery featuring a charming collection of Braid, Straw, and Fabric Hats. Distinctive, refreshing styles, designed to be worn right away, now on display in the Wright Building, Third Avenue. 24-3p

Many will be glad to know that Mrs Ben Caspar, who has been in hospital at Fort Des Moines, Iowa, for some time, and who underwent a serious operation on March 1st, is now recovered and is expected to be returning home in a couple of weeks.

Mrs J. Middlemass who was in the city last week as the delegate from the local W.L., was the guest of Mrs Dr. Tatham during her stay in Edmonton.

Omer Croteau arrived home from St. Anne de la Perade, Quebec, with his bride (nee Mary Nohert) this week. They will make their home on their farm four miles north of town.

Owing to the blizzard which held up railroad traffic all over Saskatchewan and Manitoba last week, train service from the east was unavoidably erratic.

Two more cars of cattle left town on Saturday consigned to the Edmonton markets by the local shippers, Messrs Pigeon and Smith.

H. W. McLeod this week became the proud possessor of a beautiful Edison cabinet phonograph, which he purchased through Small Bros. It sure is a dandy!

According to Hon. G. Smith, minister of education for the province, only the British flag (union jack) is allowed to be flown or displayed in or upon the schools or grounds of the province.

We understand that Miss Helen Davidson, a specialist in the C.G.I.P. work, from Winnipeg, will be in Wainwright and give several talks to the girls and mothers here next week. She will appear under the auspices of the Grace and St. Andrew's churches.

Mrs Dave Sutherland has completed the arranging of her new millinery store in the Fraser Block, and had quite an "opening" last week end.

Dr Aykroyd is having a new barn built on his farm east of town, he having rented the place.

G. H. Loss, of Edgerton, has been officially gazetted as a commissioner for taking oaths.

The curling fever is not all dispelled yet, as was proved on Saturday last when Messrs A. E. Mills (skip), F. Fish, A. Hedlund, and S. Bowerman, and Messrs W. Brown (skip), P. Dewar, D. Hansen and A. N. Other journeyed as a couple of rinks to try conclusions with the Viking aggregation. The best they could do, however, was to tie the scores.
